Humeral cortical shaft

		dimensions			
Description		*(L)*	*(W)*	*(T)*	*(D')*
		cm	mm	mm	mm
550573	Humeral cortical shaft 15 cm	14.9-15.1	18.0-25.0	3.0-12.0	2.0-19.0

Processing Specifications

Shafts consist of 90% cortical and may have some residual cancellous in the medullary canal.

Measurements

L	overall length
T	Cortical wall thickness
W'	smallest width of the shaft at any one measure
D'	maximum inner canal diameter measured medial to lateral
